Brief Profile:

Dr. Arunesh Gupta is committed in providing quality treatment to his patients for their head to toe cosmetic problems. His work has been recognized world over. After finishing his graduation and post-graduation in Mumbai, he decided to acquire further expertise in Craniofacial & Aesthetic surgery for which he undertook a 3 year long fellowship in U.S.A, where he got exposed to the cutting edge technology & the finer aspects of cosmetic surgery. This exposure to world renowned cosmetic surgeons helped him become more experienced in various techniques being used by these surgeons & comparing their long term results.

He also had a unique opportunity to work with a group of distinguished Occulo-plastic surgeons. This experience gave him a totally different perspective of operating on the eye lids & the surrounding area. Dr. Gupta has been actively involved with the research and use of Stem cells therapy in Aesthetic Surgery during his stay in U.S.A
